

A 4x4 dot grid for a coloring activity. On the left side, a rabbit is shown with a path of four blue circles. An arrow points to the right above the rabbit. On the right side, a monkey is shown with a path of four green circles. An arrow points to the left above the monkey. The central area of the grid contains a 4x4 array of circles: the top row has four white circles; the second row has three green circles followed by one white circle; the third row has three white circles followed by one green circle; and the bottom row has four white circles.
